Sky
light

Complete control of light and smart control of heat

Adding a skylight can be great way of making area brighter, more open & airier feel. sunlight can be glaring & give uncomfortable heat, so here Marvel Skylight Blind can really make a difference for your comfort.

Marvel

Marvel Colby blinds offer a variety of ways to control light & privacy

DAY & Night combinations

Combine two different fabric opacities on the one blind, to achieve optimal light and privacy control. Enjoy the best of both worlds when combining sheer and translucent, sheer and blackout or translucent and blackout fabric on the one shade.

Marvel Colby blinds are with unique light & privacy control combinations including sheer, light filtering, room darkening, and blackout fabrics to provide you with various levels of privacy, light control and luxury

Fabric Opacity Maintain Light, Privacy & Energy Efficiency

Marvel Colby blinds are a stylish, functional, versatile, energy efficient window covering solution. They are perfect for any size or shaped window and offer insulating properties to control room temperature without compromising on style.

Visible

Sheer fabrics provide the ultimate day lighting and view-through. They gently filter light while still letting you enjoy the view through the windows. Ideally suited to Day/Night applications, paired with a matching blackout fabric to create optimal light and privacy control.

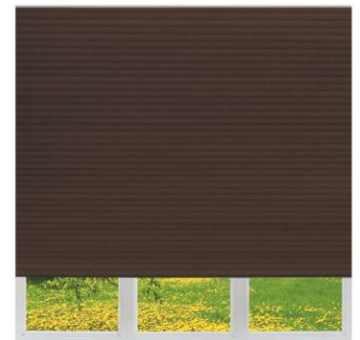

Translucent

Translucent fabrics soften harsh light while maintaining privacy and protecting your furnishings from UV fading. Enjoy the best of both worlds, with daytime privacy and natural light illumination.

Blackout

Blackout fabrics give you total control of your windows, by providing the ultimate in light and privacy control. Marvel blackout fabrics provide optimal darkening capabilities and complete privacy, day or night.

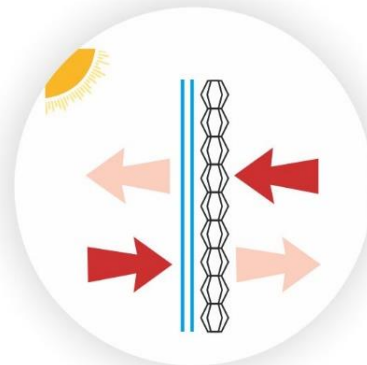

Not just beauty, but also comfort in both
Climate hot and cold

Marvel is committed to lowering our own energy usage and help
customers everywhere save energy by exploiting the power of the sun.

Energy efficiency

the cost of heating your home or
work place.

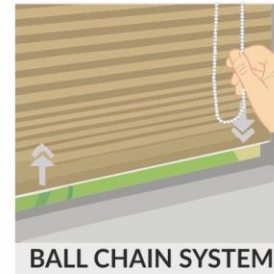

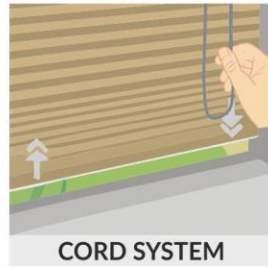

Heat FlowReduce in warm and
cold conditions

Superior
insulation

Unique air pockets trap warm air
and help to keep a more constant
indoor temperature

Operating System

Automation in blinds gives your home a touch of originality, improves function and adds value. Makes complete sense for those hard to reach places. We offer a blend of design, technology and innovation that is easy for everybody to use and amazingly versatile.

Top-Down/Bottom-Up offer you the ability to operate window blinds from the top down or the bottom up to meet all your privacy needs while still giving you access to natural light. Day & Night operating system offers maximum light control by using two separate fabric panels to achieve a day/night level of convenience, providing limitless options for privacy and light control.

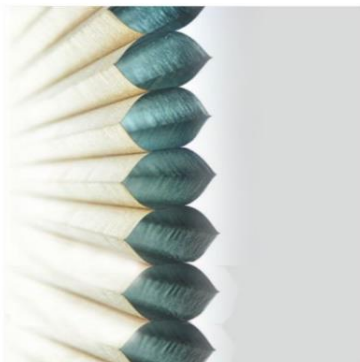

Marvel Offer two options for the pleat size **26mm** and **38mm** according to your necessity of insulation and available space to fix the blinds.
